

Year 6 National Mathematics Championships 2022

Year 6 took part in a nationwide competition for maths with 248 schools taking part. The Year 6 Ashlands' team made it through to the semi-finals!

90 schools took part in the semi-finals and we were placed 40th, just 90 points short of getting to the finals held in London. Only 14 schools went through to the finals.

What an achievement for our school which just goes to show the brilliant maths work they can do.

Gracie and Sophie were members of the teams and said, "The maths competition was an enjoyable experience for us, unfortunately we did not make it to London but we are proud of our progress and to have been in the semi-finals."

THE NATIONAL INTER-SCHOOL CHAMPIONSHIPS

Lighting the fire for knowledge
